A Good Name.

From personal experience I testify that DeWitt's Little Early Risers are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with ease.—W. T. Easton, Hoerne, Tex. Thousands of people are using these tiny little pills in preference to all others, because they are so pleasant and effectual. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge or weaken, but cleanse and strengthen. Sold by J. Jas. Wood & Son, Druggists.

The following "special" appeared in last afternoon's Cincinnati Post—

GOT BACK HIS PIN

Covington Man Was Offered \$200 Not to Prosecute, But Says He'll Open Up a Lot of Trouble.

MAYSVILLE, Ky., Nov. 24.—It developed today that William R. Varian, a dry goods druggist of Covington, who had a diamond pin nipped while on route here about two months ago, was surprised last Saturday when a well-known Democratic politician was found waiting in Varian's home and returned the pin, with a promise to give Varian \$200 not to prosecute. Thomas Lowry, who is in jail here, charged with the pin and passing it over to a confederate, who jumped from the train. The deal was struck through several Democratic politicians in Covington.

Varian says he will appear here at the trial and expose every man connected with the return of the pin. The man who had possession of the pin is unknown to Varian.

Mr. Varian, who was in the city this morning, says that he does not intend making trouble for anyone, further than prosecuting the criminal to the fullest extent of the law. He was given the pin by a resident of this city who was acting for others. The diamond pin was delivered to him in his own parlor in Covington in the presence of ladies, but he would make no concession, and told the medium of its return of his intention to prosecute the thief. He was not offered \$200, but offered compensation for whatever expense he had been put to, which he refused to accept, as he only wanted his own property.—REPORTER.

The Best Remedy for Croup. From the Atchison (Kan.) Daily Globe.

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hives syrup and jello, but some modern mothers say that Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by J. Jas. Wood & Son.

MILLIONAIRE'S POOR STOMACH.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles, 25¢, regular size, 75¢. At Henry W. Ray's, next door to Pustoffle.

HON. ROLLA K. HART was beaten for Railroad Commissioner for this District by only 8,272.

It comes from London town that the stove-pipe hat is on the way to oblivion, and that the cap will soon be the proper caper for a gentleman's lid.

WHILE the politicians are figuring out who will be nominated for the Presidency, the printer is figuring how he will get a Thanksgiving turkey.

THERE had so long been such ominous silence that THE LEDGER feared Colonel Tom CAMPBELL had gotten lost in the shuffle. The cheering news comes, however, that the eminent fixer of Juries and annihilator of Court-houses is taking a winter sail up the Mediterranean for the benefit of his shattered health. It is hoped, for the sake of the fishes and Italian drinking water, that the ship will not sink.

SENATOR NEWLANDS, author of the resolution annexing Hawaii, has introduced a joint resolution inviting Cuba to become a state of the United States upon terms of equality with the states of the Union. It provides that Porto Rico shall become a county or province of Cuba; that all the present officers of Cuba shall retain their positions till their terms expire; that the present rural guard of Cuba shall be incorporated into the Army of the United States; that the money in the Cuban treasury shall become the money of the state of Cuba.

AN appeal has gone from Berks county, Pa., to the Supreme Court of the United States to determine whether MARGARET CUNNIES, formerly of Reading, now living in Sacramento, Cal., is legally dead or alive. For years she was supposed to be really dead, but she was not. The Superior Court of Pennsylvania decided she was legally alive. The Supreme Court of the state, however, decided she was dead again. MARGARET herself thinks she knows that she is alive, but she now asks the highest Court in the land to find out if she really is living.

Political Pickings

SHALL PARTISANSHIP OBSCURE THE ISSUE?

Atlanta (Ga.) News.

There is something wearisome in the servile chorus of abuse with which the President has been assailed in connection with the new Republic of Panama. This has taken shape along two lines; first, it has been charged that the revolution was inspired and practically devised by the Washington Government, and, second, Mr. Roosevelt is denounced for having acted with indecent haste in recognizing the new Republic. Out of the mass of veiled allusions and portentous hints as to the criminal participation of this Government in the coup d'état, there has not come one substantial fact to bear out the contention, and surely if it had existed the fierce light which has been turned on the affair would have exposed it long ago.

The very course of events has more than justified the President's prompt recognition of the de facto government of Panama. It is clear that the new Republic is, and was from the beginning, well established, and that there was no other authority in the territory in question with whom we could treat.

In the petty quibbles dictated by a blind, imitative partisanship, the merits of the Panama struggle seem to have been entirely overlooked. It has been abundantly shown that the people of that province have been groaning under the yoke of oppression for years. Its rich revenues were turned into the common coffers for the benefit of Colombia, while nothing whatever was done in return for the tributaries. Even the most indispensable of public works were not carried into execution. A general air of desolation and decay prevailed everywhere, and, to crown all, the magnificent enterprise which not only means so much to Panama, but has been one of the world's splendid dreams for generations, was wantonly, and no doubt corruptly, stifled by the combined stupidity and greed of Colombian officials.

The reasonable expectations and the just demands of Panama, in matters great and small, both recent and remote, were bluntly and hopelessly disappointed. Nay, more. It is true—and why deny it?—that an oppressive gloom hung over the people of the United States, and in a measure over the whole world, only a few short weeks ago, when the Colombian Congress had rejected our canal treaty and adjourned, when it seemed that the interminable fight between the two routes was to be reopened and that we were, in fact, no nearer the realization of our dream than we were fifty years ago. The whole country felt a sickening sense of despair.

The sudden turn of affairs was like the shadow of a great rock in a weary land. A hopeless prospect was converted into one of almost absolute certainty, and today the American people know that the canal will soon become an accomplished fact.

And yet, what is the conduct of a certain class of impulsive, irrational partisans? Instead of rejoicing at the good fortune which has come upon us—one of those things which the Lord sends and the devil brings, if you will—they stand off and make faces at the Administration which happens to be in power when this lucky progress of events reaches a culmination. They work themselves into a pious frenzy worthy of a better cause to cook up a party issue which is much more likely to prove a boomerang than otherwise. Instead of lending force to their just censure of real blunders by magnanimously conceding the wisdom of the Administration's policy where it is due, they rush off into fatuous antics, contradictory and transparent, which must make our political enemy recall Grant's dictum that "you can count on the Democratic party to make a fool of itself in the hour of victory."

The monumental absurdity of it all is that Southern newspapers should join in the elation. It does not lie in the mouth of any patriotic American to question the right to revolt against tyranny and oppression. Surely it is not the province of Southern people to denounce and discredit a secession which, it has been well said already, forces a Republican Administration to vindicate our own course forty years ago. The necessities of the case should cause our friend the enemy to spend bad quarters of an hour, and yet we have seized upon the other horn of the dilemma. Instead of chuckling at its unconscious recognition of our old contention, we denounce its course and discredit, at one fell swoop, our former history and our future hopes.

For surely no people on earth have greater reason to rejoice at the prospect of piercing the isthmus than we who are at its very gates and are to catch the first fruits of the new prosperity. We shall be in the very bed of this fructifying gulf stream of commerce. Some important city on our Southern coast will be the great entrepot of the world's trade, with proportionate advantages distributed all over the Southern states. The cup is to be inverted and our lips are to be at the brim. The great commercial highways whose general course has been between New York and the Golden Gate must be deflected to the South. It is the final answer to a long and earnest prayer.

And here we sit snarling and whining in partisan rancor, a spectacle for gods and men!

O fools and blind! We are defeating our own ends. We are pushing into prominence an incident which we cannot afford to make an issue and losing sight of flagrant blunders and abuses which should drive the Republicans from power. Dominated by Trusts, gangrened with graft, its executive exponent eudging us with social equality at every opportunity, the Republican party is vulnerable at a hundred joints in its harness. They are real issues which clamor for settlement and which the American people are in a mood to settle right. They rest on no vague suspicion, like that as to some over-cunning hand being at work in Panama. They are evils which will be here long after the canal is in successful operation unless the people rise up and repudiate them.

This is no time, therefore, for us to be diverted. We are playing into the hands of the enemy, and they are secretly rejoicing. Let us adhere to the issues which are clear and just, and the mutterings heard at the polls two weeks ago, at which the party in power very properly feared and trembled, will swell into the wrath of the whirlwind when the decisive hour comes.

John Bowman, a desperate criminal who escaped from the Louisia Jail a week ago, was arrested at Kelley's lumber camp in West Virginia Monday night and lodged in the Catlettsburg Jail yesterday morning. Bowman shot Lion Mordecai Williams of Normal two months ago while attempting to rob his house. He was in jail, charged with horsestealing and shooting with intent to kill.

Fourteen men are believed to have been killed in an explosion in the mines of the Central Coal and Coke Company at Bonanza, eight miles south of Fort Smith, Ark., yesterday afternoon. The explosion was caused by a strike of gas in an entry of mine No. 20. Everything was blown out of the entry, but other portions of the mine were not affected. Fourteen men were working in the entry, and there is no hope of finding any of them alive.

The Effective Remedy

WASHINGTON, IOWA, April 4, 1903.

I was troubled for over a year with so scanty a flow that it was virtually suppression. A heavy cold superinduced this condition and nothing I could do seemed to help me.

The doctor recommended Cardui. Within two weeks I felt the good effects of the medicine and after I had used 18 bottles in all I was as healthy and regular as any woman could wish to be.

Thousands of mothers besides Miss Root's sister have found grateful relief from the pains of childbirth and have had a quick and happy recovery from its use. You cannot afford to suffer when \$1.00 bottles are sold by all druggists.

The Cause of Many

Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all drugstores in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, **Swamp-Root**, Dr. Kilmer's **Swamp-Root**, and the address, Binghamton, N. Y., on every bottle.

KODOL Weak Hearts

Are due to Indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, putting it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Kodol Digests What You Eat

Mrs. Loring Nichols of Penn Yan, N. Y., writes: After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

Kodol cures indigestion, dyspepsia and all stomach disorders, and gives the heart a full, free and untrammelled action.

Bottles only. \$1.00. Size holding 2½ times the trial size, which sells for 50¢.
